

Join the Netherlands Mathematical Congress 2023, 11-12 April, Utrecht !

April 11-12, 2023, the Netherlands Mathematical Congress ([NMC-2023](#)) will be organized again, in Van der Valk Hotel Utrecht.

NMC has been renewed in 2018. For a short video impression of the renewed NMC, click [here](#). The renewal was one of the actions scheduled in *Een Deltaplan voor de Nederlandse Wiskunde*, following the concept of the already existing congresses *Physics in Veldhoven* and *ICT Open*. After the successful NMC's of 2018 and 2019 and the careful but successful post-pandemic restart of 2022, we hope for a very successful NMC-2023.

It is important to meet once per year as Dutch academic mathematics community; to exchange thoughts, make plans and cooperate in a pleasant ambiance in the middle of the country. NWO financially supports NMC with the intention to further strengthen Dutch Mathematics as a whole.

Photo impression of NMC-2022:

NMC-2023 has an inspiring and varied program. Keynote speakers are among others:

- Éva Tardos (Cornell University), who will be awarded the *Brouwer Medal*, the most prestigious mathematics prize in The Netherlands,
- Eva Miranda (Universitat Politècnica de Catalunya),
- Kavita Ramanan (Brown University) and
- Klaas Landsman (Radboud Universiteit, *Spinoza Prize Winner 2022*).

Next to the Brouwer Medal, multiple other prizes will be awarded, among which:

- the 50 k€ *Stairway to Impact Award*,
- the new 1000 € *Indagationes Mathematicae Best Paper Award* and
- the 250 € *Pythagoras Profielwerkstukprijs*.

'Traditional' sessions in the program are those of:

- the Mathematics Clusters *DIAMANT*, *GQT*, *NDNS+* and *STAR*,
- the NWO Gravitation programs *Networks* and *Quantum Software Consortium*, and
- *4TU.AMI*, *European Women in Mathematics - The Netherlands* and *AI & Mathematics*.

New elements, for PhD students, are:

- informative workshops and
- the *Poster-Prize Competition*, next to the traditional *KWG PhD-Prize Presentation Competition*. **Registration for these two competitions is open until March 1 and March 13, respectively.**

Back as onsite session is:

- *Speed Dates with Industry*.

Of course, there will be ample opportunities for talking and working with colleagues and friends from The Netherlands and abroad, and for enjoying good drinks and food during the breaks and conference dinner.

In case you did not yet register for NMC-2023, [still do so](#) and stimulate your colleagues to do so as well. **Join and enjoy NMC-2023!**

Hope to see you at 11 and/or 12 April 2023,

Marieke Kranenburg (chair Organizing Committee NMC-2023)

Maria Vlasiou (chair Scientific Committee NMC-2023)

Barry Koren (KWG)

Olivia Muthsam (NWO)

Wil Schilders (PWN)

Nederlands Mathematisch Congres

2023

Scientific Days
11 & 12 April
