

# Fellowship Programme

Prepared by: Joanne Vinke-de Kruijf (Utwente, 4TU and UT coordinator) and Tina Comes (TUDelft coordinator)

# Our Fellowship Programme

- One of pillars of the DeSIRE programme
- Why?
  - To create (inter)national impact
  - Bridge between science and practice

Set-up of next 25 minutes:

- Interactive session: How much do you know? What's on your mind?
- Short, tailor-made introduction

# Prepare to vote

- 1 Go to **sendsteps.me**
- 2 Log in with **Free54197**

# Your knowledge about the Fellowship programme

- A. I know little, would not be able to explain.
- B. I know in general what it is about.
- C. I have looked into it.

*The question will open when you start your session and slideshow.*

# Hesitations and questions?

Am nervous

about what

The review of applications process is vague.

benefits I could convince people come with the position, and feel I need to have plans already in

place before

inviting them.

Covid this time

## Hesitations and questions (responses from audience)

- Unclear procedure (review)
- Benefits unclear
- Lack of awareness
- COVID 19 situation
- How to convince someone?

# Our Resilience Fellows: the idea

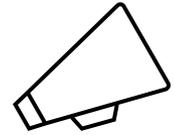

## 100 Fellows - ambassadors on RE

- Connect (inter)national networks
- Bridge between research and practice
- Knowledge dissemination
- Incubator for partnerships and projects

## Three types of fellowships

1. **Young:** between 3rd year of PhD until 7 years after PhD OR < 10 years' experience in practice
2. **Research:** 7-20 years after PhD OR 10-25 years of experience as practitioner.
3. **Ambassador:** High-level executives and outstanding researchers who shape and influence research, policy and practice

Call

# Results of previous calls

- 2019
  - UTwente (3) and TUDelft (6) only
  - Diverse quality; mix of researchers and practitioners
- 2020
  - Template for applications
  - Call between mid April - end June
  - 12 eligible applications (6 TUD, 5 UT, 1 Tue)

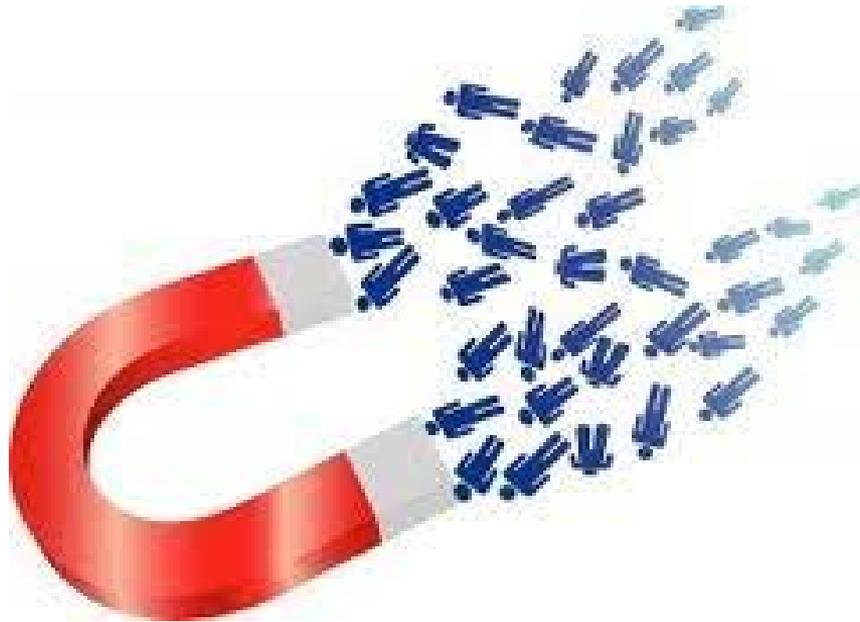

Applications are  
assessed by local  
selection committees

**! Another call expected in September 2020**

## Fellowships at UT (2019 call)

1. Visiting researcher from Spain (3 months stay) in Water Management group: paper on vulnerability and resilience water-energy nexus Spain.
2. Visiting research from China (1 week stay) in Construction Management & Engineering group: publications on climate change impacts on pavement life cycle.
3. Visiting practitioner from Mozambique (to be planned) in Marine and Fluvial Systems group: joint project on climate-resilience and water management

# Fellowships at TUD

## Do's and Don'ts

- Attracting people by directly contacting them.
- Do not rely on generic messages on linked in / twitter / website
- Extend and build on existing relations and experiences

# Fellowships at TUD

Fellows from practice

- Fellow from Deltares: regular embedding in the group, with an office at Civil Engineering for continuous collaboration
- Fellow from RHKV: collaboration around conference and proposals

**Opportunities:** cities, T02 institutes, infrastructure providers...

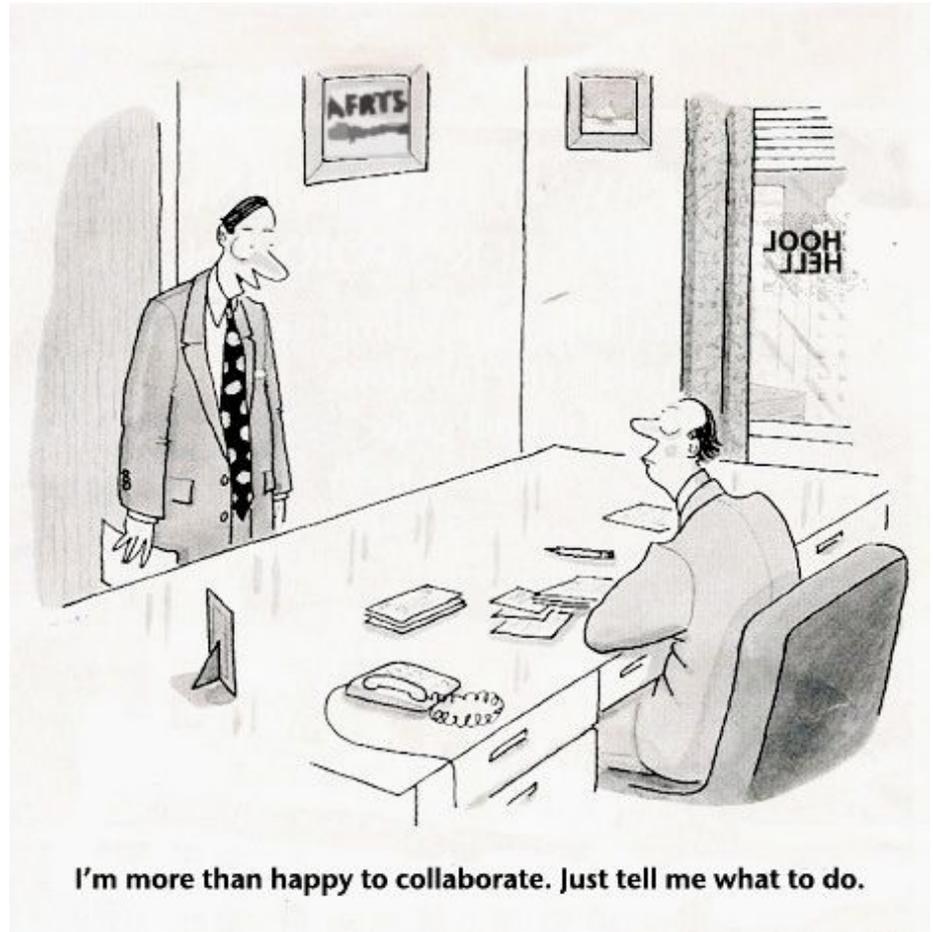

## Fellowships at TUD

Fellows from research

- **PhD fellow** to collaborate on a specific article / learn tools
- **Research fellows** to collaborate on proposals and papers

**Opportunities:** approach people with *your* ideas for proposals and papers. What would you like to learn or do? See if you can partner up!
