

## Calculus for Physics -- Bridging the VO-WO knowledge gap

Tamás Görbe

### Abstract

We provide a template designed for teachers looking to transform their courses from traditional to active or blended formats with built-in adaptiveness for varying skill levels. The relevant OER tools will be demonstrated through a first-year bachelor course on Calculus within the Astronomy and (Applied) Physics programmes at Groningen.

### Short biography

Tamás Görbe is an assistant professor in mathematics with a focus on education at the University of Groningen.
